Hit. I'm thinking all this, I'm putting it here.

Yeah, and studied now as a part of a study program.

Now, they can choose level two or level three, B Tech, or 13 levels. Yeah, more access to. No, these are like 16 to 18, we are talking about proper. Yeah, you can put access to itchy in a separate separating. Yeah, so you can say adult provision. That's access to.

Itchy computer science data science. Yeah, so for this one. Yeah, so for this one study program. We are talking about. As a part of digital Academy, they get to choose the courses. And then we will have a book or something like that. I might have not sure.

Yes. Then you can talk about cyber forced silver. Yeah, so this means that we deliver good cyber security. You should, I will send you more. Yeah, so that should be the question. Second one. Skill accelerator. Yeah, this will give you guarantee for soft skills. And they can track the soft skills as well.

Yeah, is there any specific platform for that? Oh yeah, there is, I will share. That's what I'm saying. I will share the notes with you, so I will share the websites with you. So from that, you can make more details. Yeah, uh, then World skills. Yeah, yeah, you can just say, as an example, as an example, you, you don't want the name or other things.

You can say one student. Out of eight in the UK. Yeah, then. Gold school. So simply, I need to make this a marketing material. Yes, industry placement. Although it is like here, you can say, although it is like 45 days. It is a mandatory for tea levels. We also, you know, be Tech.

Students will also do 10 years, 10 days a year to 10 days a year to yeah. Then we can talk about skill guarantee. I'm not putting it in the right order, but definitely, these two should be in the order. Then, maybe this can be three. Yeah, still guarantee, so this is for guarantee for soft skills still guarantees.

And you can say. We provides. We don't have to specify which skills are those. Now, what you can say, you will have a tracker where you can track a technical future as well. Yeah, okay, so we guarantee your skills.

No, no, this is for soft skills. This is a program, okay, that we have got. We have received a funded place. Okay, yeah, this one. We are just using a tracker. We can create our own tracker. Not done, then you have just attain engine. Obviously, it's like an overall factor with both academic council.

Have been wonderful. We have achieved the 3500 funded place for free for this year. Of the course. And 50 levels. Don't say. Eighty percent in costume. Don't say this. Okay. You can highlight. 45 days of Industry Jason, and then you can provide some examples like our students have placed here here.

Yeah, we can get all one support for apply for degree apprenticeship. A lot of students have gone for theory, operations, and other things you know we have to typically make it like a marketing thing where it lose the Learners to pick the courses we got it. But this is this is, since

it's like a project, I mean, it's not easy.

Yeah, yeah, because this is going to be the base of yeah, what we want, make it strong. Yeah, yeah. So, even if it takes time, that's okay. Once properly. Yeah, let's do it here. So. You know about the printing? You don't have to worry about it, just design it okay, and then we can get Department.

Yeah, thank you so much. It's really good that Harvey has completed. Yeah, a little bit more push. Our hand will complete. We don't want to mix. Yeah, I'm switching through the iot ski so they can talk and see an options as well because not going to catch on our achievement.

Anything I spoke to friends and as well. Yeah, I have a different problem to talk about tomorrow because three T level students have come with similarity such an email, so I will leave it tomorrow morning on top of the meetings. So okay, you can text me.
